Invitation to become Associated Partner of the School Safety Net (SSN) Project

Dear ,

I am currently involved in a European project on Preventing School Dropout – the School Safety Net Project, which is available at <http://schoolsafetynet.pixel-online.org/index.php>

The project contains a database of resources on success stories, training resources, publications, teachers' experiences and guidelines targeted at students, teachers, head teachers, parents and policy makers.

I think you will find them useful for teacher training programmes, as well as the initial and in-service training of any other social workers involved formally and informally with young people and the problem of school dropout due to risk situations, learning, difficulties, immigration or bullying – which are the four areas the project addresses.

This is really an invitation to help us disseminate these data further among European partners and education stakeholders. There are two ways in which you could do this, namely:

- 1) You could become an Associated Partner ( I am enclosing the necessary documents, which are self-explanatory). I would be very glad if you did.
- 2) You could put the SSN weblink on your institutional webpage ( I am enclosing the necessary form). This would make the project visible for the end users of your services.

Even if you can't do either, just have a look at the database of resources and at the webpage and let us have your comments (I am enclosing a comment form) or forward this invitation to those people/institutions you know may be interested in it.

Thanks for your cooperation. I will be available for any clarifications you may need.

Best regards

Margarida Morgado
